About the Final Exam

Geography 101

The final exam is scheduled for 7:45 PM on May 5. Please be on time!

The exam will be similar to exam 2, but with some minor modifications. Instead of having three short essay questions drawn from the module, you will only two, drawn from the following examples:

1. Given the complex dynamics between the Chinese state, Tibet, and Hollywood, how likely is it that we see major Hollywood movies focused on Tibet in future? Using evidence from readings and lecture, why?

2. The Zapatistas simultaneously protest against globalization, and yet exploit it at the same time. Explain.

3. What are the push and pull factors that have transformed France over the past few decades?

Each question will be worth 15 points. In addition, you will have a more comprehensive essay question worth 30 points. Drawing on material you learned throughout the course, I would like a thoughtful essay that addresses the following:

Choose one of the case studies from any of the previous modules (except this one). Using ideas you have learned throughout the course, as well as evidence, how can a geographic perspective shed light on on the complexities of contemporary change under globalization?

Finally, there will be 15 multiple choice questions worth 2 points each, and 10 map identification worth 1 each.
