APPLICATION FORM
COME TO LONDON - GAIN GLOBAL PERSPECTIVE!

We will:

- visit places where Newton worked,
- see a West End play in London,
- see ancient monuments of England and understand their relation to mathematical ideas in society,
- explore mathematical collections of British Museum and other museums in London and vicinity to learn about connections of mathematics to history, culture and modern world,
- have a chance to participate in Olympics 2012 which has venues very close to our centrally located accommodations.

Links:
- Info sheet with all details and prices
- AIFS video about study in London
- Power point about the program
- Power Point about London and housing

Classes:

Geometry MTH 411 and Optimization MTH 432

They can count toward

- requirements towards a major in mathematics or mathematics and statistics
- requirements for a minor in mathematics
- a thematic sequence

Applications accepted until all spots are filled

Prerequisites:

Linear Algebra, MTH 222 and Calculus III (MTH 252)

OR permission of the instructor

DEFINITELY contact us if you are interested in going but do not have Calc 3, we will let you know what you can do to get the permission to participate.
